PALETE DE CORES

COLOR PALETTE

MAGIC glass offers customers the possibility to choose different alternatives within each of the variables that it presents: COLOR PALETTE and PRINT AREA. In this way, customers have numerous options for decorating the partitions just the way they want them.

MAGIC glass oferece aos clientes a possibilidade de escolher distintas alternativas dentro de cada uma das variáveis que apresenta: PALETA DE CORES e ÁREA DE IMPRESSÃO. Deste modo, os clientes dispõem de numerosas opções para decorar as divisórias tal e qual como deseja.

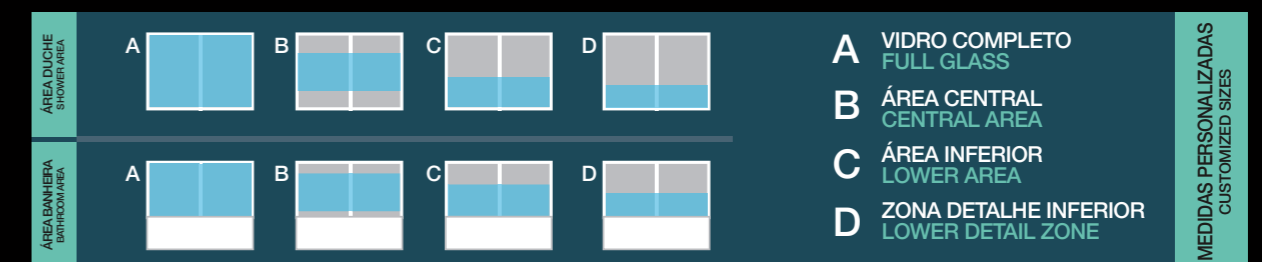

ÁREAS DE IMPRESSÃO POSSÍVEIS

POSSIBLE PRINTING AREAS

MAGIC glass allows you to apply the chosen design of any of our themes in different areas of the partitions. Depending on the design selected by the customer, it is possible to integrate the design in the middle, lower and upper part, or even in the all glass.

MAGIC glass permite aplicar o desenho escolhido de qualquer dos nossos temas em distintas áreas das divisórias. Em função do desenho seleccionado pelo cliente, é possível integrar o desenho na parte média, inferior e superior, ou ainda na totalidade do vidro.

APLICAÇÃO DA IMAGEM NO VIDRO

APPLICATION OF THE IMAGE ON THE GLASS

When an image is applied to the glass, only a specific part of it is used. This part is determined by the chosen print area, which can be A, B, C or D, depending on the width requested by the customer. The area of the image depending on these factors. It is generally important to note that in Magic Glass technology, the printing of different designs or images is always initiated by the first glass on the left side of the partition, viewed from the front, regardless of the chosen configuration.

Quando uma imagem é aplicada no vidro, só se usa uma parte específica da mesma. Essa parte é determinada pela área de impressão escolhida, que pode ser A, B, C ou D, em função da largura solicitada pelo cliente. Dependendo destes fatores é determinada a área da imagem. Regra geral é importante referir que, na tecnologia Magic Glass, a impressão dos diferentes desenhos ou imagens são sempre iniciados pelo primeiro vidro da parte esquerda da divisória, visto de frente, independentemente da configuração escolhida.
